SUMMARY

A BCA student learning React.js and building real-world projects, with the goal of mastering the MERN stack and Next.js. Passionate about frontend development and seeking an internship or junior developer role to grow my skills.

EDUCATION

Bachelor of Computer Application (BCA)
Morgan International College, Basundhara, Kathmandu — Tribhuvan University
Expected Graduation: November 2028

SKILLS

HTML · CSS · JavaScript · React.js · PHP · MySQL · Git · GitHub

PROJECTS

StudyDesk — **Code**
A full-stack student productivity web app with task management, exam planning, a Pomodoro timer, and a feedback system, built with role-based access control. Developed as a 4th-semester BCA project.

StudyDesk Lite — **Live** · **Code**
A lightweight, full-featured study dashboard combining task management, exam planning, note-taking, and a Pomodoro timer into a single offline-capable PWA. Built entirely with vanilla HTML, CSS, and JavaScript as a frontend-only application, allowing free deployment.

React Chatbot — **Live** · **Code**
A chatbot interface built with React and Vite, featuring a custom response engine.
